

SERPENTS

PROGRAM NOTE:

Seemingly from the beginning of time, human beings have had a mysterious relationship with Serpents. They may be the oldest and most widespread mythological symbol known to humankind and the symbology often expresses the dual relationship between good and evil. Fertility, sky and spirit unity, the umbilical cord, healing & medicine, divine wisdom, guardians of secrets, are only a few of the symbolic associations known to us. This music attempts to capture some of the power and mystery associated with the mysterious serpent.
